<u>Project & Country</u>	<u>kind of installation</u>	<u>initiation</u>
HOLCIM, Holderbank BELOIZVORSKI CEMENT - Bulgaria Controlling inertizing vessel and valve station, engineering	Vessel 3,0/80	April 2000
KRUPP POLYSIUS, Beckum FUJAIRAH CEMENT DIBCOM - Dubai Controlling inertizing vessel and valve station, engineering	Vessel 1,5/80	August 2000
LOESCHE, Düsseldorf CURICO COAL - Chile Controlling inertizing vessel and valve station, engineering	Vessel 3,0/80	May 2001
CLAUDIUS PETERS, Buxtehude CEMENTARNA TRBVOLJE - Slovenia Controlling inertizing vessel and valve station, engineering	Vessel 3,0/80	August 2001
ALTMAYER, Rehlingen RWE RHEINBRAUN POWER PLANT Niederaußem Controlling inertizing vessel and valve station, engineering	Vessel 5,0/80	August 2001
LOESCHE, Düsseldorf TITAN CEMENT SALONIKI - Greece Controlling inertizing vessel and valve station, engineering	Vessel 5,0/80	December 2001
LOESCHE, Düsseldorf NASICE CEMENT - Croatia Controlling inertizing vessel and valve station, engineering	Vessel 5,0/80	December 2001
ALTMAYER, Rehlingen HEIDELBERGCEMENT ZLATNA PANEGA - Bulgaria Controlling inertizing vessel and valve station, engineering	Vessel 5,0/80	December 2001
CLAUDIUS PETERS, Buxtehude Controlling inertizing vessel and valve station, engineering	Vessel 10,0/80	December 2001

robecco GmbH, Industriepark 17, 56593 Horhausen

08.08.2008

Project & Country	kind of installation	initiation
ALTMAYER, Rehlingen HEIDELBERGCEMENT ISTRA CEMENT PULA - Croatia Controlling inertizing vessel and valve station, engineering	Vessel 5,0/80	January 2002
KRUPP POLYSIUS, Beckum LAFARGE KUJAWY - Poland Controlling inertizing vessel and valve station, engineering	Vessel 5,0/80	March 2002
STADTWERKE NÜRNBERG SLUDGE DRYING PLANT Controlling inertizing and valve station, engineering gasanalyzing system	Valve station	March 2002
HOLCIM, Holderbank CIMUS - Romania Controlling inertizing vessel and valve station, engineering	Vessel 5,0/80	April 2002
KRUPP POLYSIUS, Beckum URUMINCOM - Argentina Controlling inertizing battery and valve station, engineering	Battery 48/30	April 2002
IMSAT, Bukarest LAFARGE JCF FUHAIS - Jordan Controlling inertizing vessel and valve station, engineering	vessel 5,0/80 vessel 3,0/80	April 2002
IMSAT, Bukarest LAFARGE JCF RASHADIYA - Jordan Controlling inertizing vessel and valve station, engineering	vessel 5,0/80	April 2002
HOLCIM, Holderbank ALCIM - Romania Controlling inertizing vessel and valve station, engineering	Vessel 5,0/80	April 2002
ALTMAYER, Rehlingen HEIDELBERGCEMENT AKCANSA BUYUCEKMECE - Turkey Controlling inertizing vessel and valve station, engineering	Vessel 10,0/80	August 2002

robecco GmbH, Industriepark 17, 56593 Horhausen

08.08.2008

Project & Country

kind of installation

initiation

SHARR, Skopje
SHARR CEMENT - Macedonia
Controlling inertizing vessel
and valve station, Engineering

Vessel 3,2/80

August 2002

CLAUDIUS PETERS, Buxtehude
HEIDELBERGCEMENT Kakanj - Bosnia
Controlling inertizing vessel
and valve station, Engineering

Vessel 5,0/80

September 2002

KHD, Köln
JIANGXI II - China
Controlling inertizing battery
and valve station, Engineering

Battery 78/20

October 2002

CLAUDIUS PETERS, Buxtehude
JIANGXI II - China
Controlling inertizing battery
and valve station, Engineering

Battery 120/20

October 2002

LAS CEMENTAS NAT., Guayaquil
Cement Works – Ecuador
Controlling inertizing vessel
and valve station, Engineering

Vessel 5,0/80

October 2002

GEBR. PFEIFFER, Kaiserslautern
KOHAT – Pakistan
Controlling inertizing battery
and valve station, Engineering

Battery 78/30

October 2002

LOESCHE, Düsseldorf
TITAN CEMENT KOSJERIC – Serbia
Controlling inertizing vessel
and valve station, Engineering

vessel 5,0/80

November 2002

CEMENTOWNIA, Opole
HEIDELBERGCEMENT GORAZDZE – Poland
Controlling inertizing vessel
and valve station, Engineering

valve station

February 2003

CLAUDIUS PETERS, Buxtehude
RMC DALMACIJ CEMENT – Croatia
Controlling inertizing vessel
and valve station, Engineering

vessel 10,0/80

March 2003

robecco GmbH, Industriepark 17, 56593 Horhausen

08.08.2008

Project & Country	kind of installation	initiation
GEBR. PFEIFFER, Kaiserslautern CEMENTAS BALBOA – Spain Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	May 2003
LOESCHE, Düsseldorf LAFARGE BEOCIN – Serbia Controlling inertizing vessel and valve station, Engineering	vessel 10,0/80	May 2003
LOESCHE, Düsseldorf HOLCIM NOVI POPOVAC – Serbia Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	May 2003
LOESCHE, Düsseldorf HOLCIM NOVI POPOVAC – Serbia Controlling inertizing N2-packs and valve station, Engineering	2 x N2-packs + valve stat.	May 2003
STANDARD KESSEL, Duisburg Bio power plant, Ulm Controlling inertizing vessel and valve station, Engineering, gasanalyzer system	N2-valve station	July 2003
CEMAG Anlagenbau, Hameln FAUJI CEMENT – Pakistan Controlling inertizing battery and valve station, Engineering	Battery 120/30	October 2003
CEMAG Anlagenbau, Hameln ASKARI CEMENT – Pakistan Controlling inertizing battery and valve station, Engineering	Battery 120/30	October 2003
LOESCHE, Düsseldorf NUH CEMENT Hereke 5 Coal – Turkey Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	November 2003
KRUPP POLYSIUS, Beckum MIDLAND CONSTRUCTION CORP Da Nang plant – Vietnam Controlling inertizing vessel and valve station, Engineering	vessel 3,0/80	December 2003

robecco GmbH, Industriepark 17, 56593 Horhausen

08.08.2008

Project & Country	kind of installation	initiation
KRUPP POLYSIUS, Beckum CEMENTAS La Robla plant - Spain Controlling inertizing and valve station, Engineering	valve station	December 2003
CEMEX, Manila SOLID CEMENT CORP Makati City – Philipines Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	December 2003
STANDARD KESSEL, Duisburg Bio power plant, Elsterwerda Controlling inertizing battery and valve station, Engineering, gasanalyzersystem	N2-valve station	January 2004
AJOtec, Freudenberg MAN power plant, Nuremberg Controlling inertizing vessel and valve station, Engineering gasanalyzersystem	vessel 1,5/80	March 2004
CEMENTO ANDINO, New Coal Mill Kiln 2 - Peru Controlling inertizing vessel and valve station, Engineering	vessel 10,0/80	April 2004
SALONIT ANHOVO New Coal Mill - Slovenija Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	August 2004
SILOBAU THORWESTEN, Beckum HEIDELBERGCEMENT, Schelklingen Controlling inertizing vessel and valve station, Engineering	vessel 15,0/80	August 2004
MÄRKER ZEMENT, Harburg Coal grinding plant Controlling inertizing vessel and valve station, Engineering	vessel 10,0/80	September 2004
MÄRKER ZEMENT, Harburg Limestone plant Controlling inertizing vessel and valve station, Engineering	vessel 1,5/80	September 2004

robecco GmbH, Industriepark 17, 56593 Horhausen

08.08.2008

Project & Country	kind of installation	initiation
GEBR. PFEIFFER, Kaiserslautern READYMIX RIGA – Lettland Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	Dezember 2004
ALTMAYER, Rehlingen MÄRKER Limestone plant, Herrlingen Controlling inertizing and valve station, Engineering	N2-valve station	Dezember 2004
PAUL WURTH, Luxembourg Primorec Primus Prozeß plant Controlling inertizing vessel and valve station, Engineering	N2-valvestation	April 2005
FCB.CIMENT, Villeneuve d'Ascq LAFARGE TULA CEMENT – Mexico Controlling inertizing vessel and valve station, Engineering	vessel 3,9/25	May 2005
LOESCHE, Düsseldorf PENGZHOU COAL – China Controlling inertizing battery and valve station, Engineering	battery 168/30	September 2005
LOESCHE, Düsseldorf RUICHANG COAL – China Controlling inertizing battery and valve station, Engineering	battery 168/30	November 2005
POLYSIUS, Beckum La Cruz Azul - Cycna de Oriente - Mexico Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	November 2005
PEG Engineering, Genf LAFARGE HOPE CEMENT - UK Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	November 2005
CEMENTO ANDINO, Old KHD Coal powder silo – Peru Controlling inertizing vessel and valve station, Engineering	renovation vessel 10,0/80 + valve station	February 2006

robecco GmbH, Industriepark 17, 56593 Horhausen

08.08.2008

Project & Country	kind of installation	initiation
CEMAG, Hameln Les Ciments du Sahel – Senegal Controlling inertizing vessel and valve station, Engineering	vessel 6,8/25	March 2006
POLYSIUS, Beckum THALOFA – Vietnam Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	March 2006
GEBR. PFEIFFER, Kaiserslautern CHEKKA II – Lebanon Controlling inertizing vessel and valve station, Engineering	vessel 3,0/80	April 2006
LOESCHE S A, Johannesburg ANTOFAGASTA – CHILE Controlling inertizing vessel and valve station, Engineering	vessel 3,0/80	April 2006
CARPATCEMENT, Bucharest HC DEVA CEMENT - Romania Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	November 2006
CARPATCEMENT, Bucharest HC BICAZ CEMENT - Romania Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	November 2006
POLYSIUS, Beckum HATIKOM - Vietnam Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	Dezember 2006
POLYSIUS, Beckum HATIKOM - Vietnam Controlling inertizing battery and valve station, Engineering	battery 48/30	Dezember 2006
FCB.CIMENT, Villeneuve d'Ascq VINAINCON THAI NGUYEN – Vietnam Controlling inertizing vessel and valve station, Engineering	vessel 3,9/25	January 2007

robecco GmbH, Industriepark 17, 56593 Horhausen

08.08.2008

Project & Country	kind of installation	initiation
GEBR. PFEIFFER, Kaiserslautern CIMSA ESKISESHIR – Turkey Controlling inertizing vessel and valve station, Engineering	vessel 10,0/80	January 2007
POLYSIUS, Beckum LOMACOM – Argentina Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	March 2007
HOFFMEIER, Hamm SEIBEL CEMENT – Germany Controlling inertizing vessel and valve station, Engineering	vessel 5,0/80	July 2007
CLAUDIUS PETERS, Buxtehude LKAB - Sweden Controlling inertizing N2 packs and valve station, Engineering	N2-packs + valvestation	July 2007
AJOtec, Freudenberg VATTENFALL ALSTOM OXYFUEL – Germany Powerplant Controlling inertizing vessel and valve station, Engineering, Gasanalyzersystem	vessel 3,0/80	July 2007
AJOtec, Freudenberg Rheinkalk Flandersbach – Germany Lime burning plant Engineering, Gasanalyzersystem		July 2007
SINOMA CBMI, Beijing LAFARGE REZINA - Moldavia Controlling inertizing N2-packs and valve station, Engineering	N2-packs + valvestation	July 2007
AS CEMENT, Bucak KIZILKAYA plant – Türkei Controlling inertizing vessel and valve station, Engineering	vessel 10,0/80	October 2007

robecco GmbH, Industriepark 17, 56593 Horhausen

08.08.2008

Project & Country	kind of installation	initiation
BASTAS CIMENTO, Ankara Baskent plant – Türkei Controlling inertizing vessel and valve station, Engineering	vessel 5,4/80	October 2007
CTIEC China Triumph, Nanjing HC AKCANCA PLANT – Turkey Controlling inertizing vessel and valve station, Engineering	vessel 10,0/80	October 2007
GEBR. PFEIFFER, Kaiserslautern BIZERTE – Tunisie Controlling inertizing vessel and valve station, Engineering	vessel 5,4/80	Oktober 2007
CHRISTIAN PFEIFFER, Liezen CEMEX ANDORRA – Spain Controlling inertizing vessel and valve station, Engineering	vessel 3,0/80	November 2007
CHRISTIAN PFEIFFER, Liezen CEMEX – Lettland Controlling inertizing vessel and valve station, Engineering	vessel 5,4/80	November 2007
POLYSIUS, Beckum DIBER – UAE Controlling inertizing vessel and valve station, Engineering	vessel 5,4/80	Dezember 2007
POLYSIUS, Beckum HONDUPER – Honduras Controlling inertizing vessel and valve station, Engineering	vessel 3,0/80	Dezember 2007
POLYSIUS, Beckum TEBECOM – Mexico Controlling inertizing vessel and valve station, Engineering	vessel 5,4/80	January 2008
Altmayer Rehlingen Kröner Stärke, Germany Controlling inertizing N2 packs and valve station, Engineering	N2-packs + valvestation	January 2008

rob ecco GmbH, Industriepark 17, 56593 Horhausen
